Mr. Jeffrey P. Young, P.E.
Senior Engineer
Weaver, Boos and Gordon, LLC
6420 Southwest Blvd., Suite 206
Fort Worth, TX 76109

Dear Mr. Young:

This is in response to your July 23, 2008, letter about completing the second phase of a horizontal and vertical expansion of the existing Fort Worth Southeast Landfill. We have no record of any public-use airports within six miles of the site and have no objection to the proposal from the standpoint of potential bird hazards to aircraft.

This site has been assigned our File No. 87-002TX. Please use this number in any future correspondence concerning this facility. Thank you for coordinating it with us.

Sincerely,

Faye Nedderman
Executive Technical Assistant

SUBJECT: Project Number SWF-2003-00524, FORT WORTH SOUTHEAST LANDFILL

Mr. Jeffrey P. Young, P.E.
Weaver Boos & Gordon, LLC - Southwest
6420 Southwest Boulevard
Suite 206
Fort Worth, TX 76109

Dear Mr. Young:

Thank you for your letter received July 7, 2008 concerning the proposal by the City of Fort Worth to construct a 6.4-acre lateral expansion of the east side of the Fort Worth Southeast Landfill in the City of Fort Worth, Tarrant County, Texas. This project is considered to be an extension of previous project SWF-2003-00524. Please include this number in all future correspondence concerning this project. Failure to reference the project number may result in a delay.

We have reviewed this project in accordance with Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act of 1899. Under Section 404, the U.S. Army Corps of Engineers (USACE) regulates the discharge of dredged and fill material into waters of the United States, including wetlands. The USACE responsibility under Section 10 is to regulate any work in, or affecting, navigable waters of the United States. Based on your description of the proposed work, other information available to us, and current regulations and policy, we have determined that this project will not involve any of the above activities. Therefore, it will not require Department of the Army authorization under the above laws. However, it is incumbent upon you to remain informed of any changes in USACE Regulatory Program regulations and policy as they relate to your project.

The USACE based this decision on a preliminary jurisdictional determination (JD) that there are not waters of the United States on the project site. This preliminary JD is valid for a period of no more than five years from the date of this letter unless new information warrants revision of the delineation before the expiration date. It is incumbent upon the applicant to remain informed of changes in the Department of the Army regulations.

Thank you for your interest in our nation's water resources. If you have any questions concerning our regulatory program, please contact Ms. Heather Markway at the address above or telephone (817) 886-1745 and refer to your assigned project number.

Sincerely,

Neil Lebe
for Stephen L Brooks
Chief, Regulatory Branch
